Hi Nic,

I got your message and have been working to see if we have anything useful. Unfortunately I'm not seeing anything that shows what you're looking for. I'm not sure if NGS is doing flights yet or not. They are the right shop though as the satellite images from GOES will not be the right resolution. You could make a formal request through FEMA for an NGS flight or have someone contact Brad Kearse directly. He should be in the NOAA staff directory. Just depends on how urgent and critical this is.

Jess
